LinkedIn · GitHub · work.kadal.cc

CAREER OBJECTIVE

Design and deliver production-grade AI systems and full-stack products: LLM agents with tool use and durable task loops, RAG and vector retrieval, real-time voice and messaging pipelines, and observability across prompts and traces. Strong in React/TypeScript and Node.js backends, API design (REST, tRPC), data layers (MongoDB, SQL Server, Firestore), and integrations (Twilio, iMessage, CRMs, Cloudflare Workers). Focus on reliable deployments, measurable quality, and end-to-end ownership from agent logic to user-facing interfaces.

TECHNICAL SKILLS

AI / ML	LLMs · LangChain · RAG · NLP · Computer Vision · Python · Langfuse · Azure AI · Google AI
LANGUAGES	HTML · CSS · JavaScript · TypeScript
FRONTEND	React · Next.js · Redux · Material UI · ShadCN/UI · TanStack Query · TanStack Table
BACKEND	Node.js · Fastify · Express · tRPC · REST · Swagger · Zod · SSE · Firebase Functions
DATA	MongoDB · MySQL · SQL Server · Azure SQL · Prisma · Firestore
CLOUD	Azure · AWS SES · AWS SNS · Docker · Cloudflare Workers · Firebase
QUALITY	Cypress · Appium · Nightwatch
INTEGRATIONS	Twilio · AssemblyAI · iMessage · AppleScript · HubSpot · Attio · GoHighLevel · Teams · Zapier
TOOLS	Git · GitHub · Azure DevOps · Jira · Chrome DevTools · React DevTools

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER
Qualkode Technologies
Jun 2025 – Present

FRONTEND DEVELOPER
The Fifth Element Consultancy
Mar 2025 – May 2025

FULL-STACK DEVELOPER
cluBITS Solutions
Sep 2023 – Mar 2025

ANALYST PROGRAMMER
Ramco Systems
Jul 2021 – Jun 2023

KEY PROJECTS

Microservices Communication Platform
Multi-channel messaging (email, SMS, iMessage, push), file storage, and AI-assisted content generation behind type-safe APIs and validation.

Node.js · Fastify · tRPC · AWS SES/SNS · Azure · Prisma · Zod

Eligibility Verification System
Insurance eligibility workflows with QR card upload, server-driven updates over SSE, and optimized data tables for operations teams.

React · TanStack Query · TanStack Table · Fastify · tRPC

Interactive Education Portals
Responsive, accessible learning interfaces; migrated legacy Angular apps to React with shared component patterns and centralized state.

Next.js · React · Redux Toolkit · TypeScript

Enterprise UI Component Library
Documented reusable components in Storybook; optimized stored procedures and supported React migration of a large enterprise frontend.

React · Storybook · SSMS

AI PROJECTS

MessageBlue — iMessage API for AI Agents
Agent layer with retrieval over customer knowledge, persistent memory, voice-note replies, and safe tool writes; CRM webhooks and VoIP bridges for HubSpot, Attio, GoHighLevel, and Teams.

Node.js · LLMs · RAG · WebSocket · HMAC · Swagger · Zapier

Blush — VIP Matchmaking AI Agents & CRM
Production agents for client chat, scheduling, and outbound calling; Twilio/SendBlue messaging with observability; Appium capture and CV+LLM profile normalization; live-call dashboards with Media Streams and AssemblyAI transcription.

LangChain · Langfuse · React · Node.js · Firebase · Twilio · Appium · MongoDB

Lana — iMessage AI Assistant
User lifecycle, referral flows, webhook routing, and group-chat UX; AppleScript automation on distributed Mac agents for messages, tapbacks, and read receipts.

Node.js · AppleScript · iMessage · React

Toldo — No-Code AI Assistant Builder
Serverless assistant builder with chat-to-creation workflows and publishing to Web, Slack, Telegram, and Microsoft Teams.

Cloudflare Workers · Durable Objects · D1 · LLMs · React

AI-Powered Resume Generation
Automated CV generation with structured data extraction, dynamic section formatting, and export-ready document output.

Next.js · React · LLMs · TypeScript

EcoGradeML — Food Eco-Grade Prediction
Ordinal classification of food eco-grades (A–E) from ingredient text using multilingual features and Open Food Facts data.

Python · XGBoost · TF-IDF · CORAL · Embeddings · NLP

Sign Language Recognition
Video pipeline with pose extraction, temporal CNN-RNN models, augmentation experiments, REST API, and React inference UI.

Computer Vision · Python · CNN-RNN · React

Chennai 15-Minute City GIS
Isochrone APIs, ward-level accessibility scoring, spatial clustering, and LLM-assisted analysis in a map-centric web app.

GIS · Python · LLM · React

AI Assistants & NLP Workflows
Composable LangChain pipelines, text classification, feature engineering, and model evaluation for assistant-style applications.

LangChain · LLMs · NLP · Semantic Embeddings

EDUCATION

M.Tech — Artificial Intelligence
SRM Institute of Science and Technology · Pursuing · CGPA 8.70 (2nd Semester)

B.E — Electronics and Communication Engineering
Easwari Engineering College · 73%

HSC · 87% | SSLC · 96%
SBOA Matriculation Hr Sec School

CERTIFICATION

MERN Stack Developer
GUVI Geek Technologies Pvt. Ltd.
Dec 2020 – May 2021

Studio portfolio **work.kadal.cc** — independent AI product studio co-built with a colleague.
