YUGESH M M

Full-Stack Developer · React JS & Node JS

mmyugesh@gmail.com +91 9677279963 LinkedIn Profile

CAREER OBJECTIVE

A creative and result-oriented Full-Stack Software Engineer with 5+ years of experience designing, implementing, and maintaining responsive, scalable, and AI-enabled applications across web platforms. Passionate about microservices, AI technologies, and contributing to innovative products within fast-paced engineering environments.

TECHNICAL SKILLS

Languages	HTML, CSS, JavaScript, TypeScript
Frontend	ReactJS, Next.js, Redux, Material UI, ShadCN/UI
Backend	Node.js, Fastify, Express.js, tRPC, REST APIs, Swagger
Databases	MongoDB, MySQL (SSMS), Azure SQL / SQL Server, Prisma ORM
Cloud & DevOps	Azure, AWS (SES, SNS), Basic Docker Knowledge
Automation	Cypress, Appium, Nightwatch
Dev Tools	Git, GitHub, Chrome Debugger, React Dev Tools
Ticketing	Azure DevOps, Jira
OS	Windows, Linux

PROFESSIONAL EXPERIENCE

Full Stack Developer
June 2025 – Present

The Blush

Frontend Developer (Freelance)
March 2025 – May 2025

The Fifth Element Consultancy

Dubai (Remote)

Full Stack Developer
September 2023 – March 2025

cluBITS Solutions

- Designed and developed scalable web applications using React and Node.js
- Built secure APIs using tRPC and REST architecture
- Managed databases using Prisma ORM and SQL Server
- Created reusable and maintainable UI components
- Integrated AI services (Azure AI, Google AI) into production applications
- Optimized performance of APIs and frontend applications

Analyst Programmer *July 2021 – June 2023*
Ramco Systems

- Worked on enterprise-level application development and maintenance
- Collaborated with cross-functional teams and maintained documentation

KEY PROJECTS

Microservices Communication Platform
Tech: Node.js, TypeScript, Fastify, tRPC, AWS SES, AWS SNS, Azure Communication Services, Prisma, Zod
Duration: *October 2023 – December 2023 | Client: Own Product*

- Designed and developed microservices architecture for communication systems
- Built iMessage service using Node.js and AppleScript
- Implemented multi-channel communication: Email, SMS, Notifications
- Integrated AWS SES/SNS and Azure Communication Services
- Developed file storage service for managing large files and media
- Integrated AI features for content generation and text extraction

Eligibility Verification System
Tech: React.js, TypeScript, TanStack Query, TanStack Table, Node.js, Fastify, tRPC
Duration: *January 2024 – July 2024 | Client: US Client*

- Verified insurance coverage and deductible coinsurance using patient insurance data
- Developed QR code scanner for uploading insurance card details via web and mobile
- Implemented real-time updates using Server-Sent Events (SSE)

HRMS – Human Resource Management System
Tech: React.js, TypeScript, Material UI, Node.js, Fastify, tRPC, Prisma
Duration: *August 2024 – Present | Client: Own Product*

- Built a scalable HR management system to streamline organizational workflows
- Developed dynamic tables with advanced filtering, custom sorting, and pagination
- Followed Agile methodologies and maintained version control using GitHub

Automation & Data Extraction System
Tech: Appium, Nightwatch, Cypress

- Built automation workflows to scrape profile data from mobile applications
- Used Appium + Nightwatch for mobile automation and structured data extraction
- Used Cypress for internal API testing and validation
- Designed scalable automation pipelines for continuous data collection

PROFESSIONAL SUMMARY

- Proficiency in Full Stack Development using React (frontend) and Fastify/Express (backend)
- Strong expertise in TypeScript for scalable and maintainable applications
- Hands-on experience in Microservices Architecture and distributed systems
- Experience building iMessage communication services using Node.js and AppleScript
- Skilled in automation and web scraping using Appium and Nightwatch
- Strong experience with tRPC and REST APIs for type-safe communication
- Proficient in database management using Prisma ORM and SQL Server
- Experience integrating AI-powered solutions (Azure AI, Google AI)
- Knowledge of AWS and Azure services for communication and storage
